

September Works Notice

Boundary Reserve WW and SW Project

Upcoming works on Tripoli Road

Kia Ora community,

We began works at the Boundary Reserve in early May with the upgrade of the stormwater network now successfully completed. The construction of the new wastewater diversion pipeline is underway. This includes installing 555 meters of pipeline and eight manholes, extending from Boundary Reserve West to Boundary Reserve East and connecting to the new wastewater pump station on Dunkirk Road.

We will commence the installation of the wastewater pipeline along Tripoli Road at the end of August, where two new concrete manholes will be built in-situ and two existing manholes will be replaced.

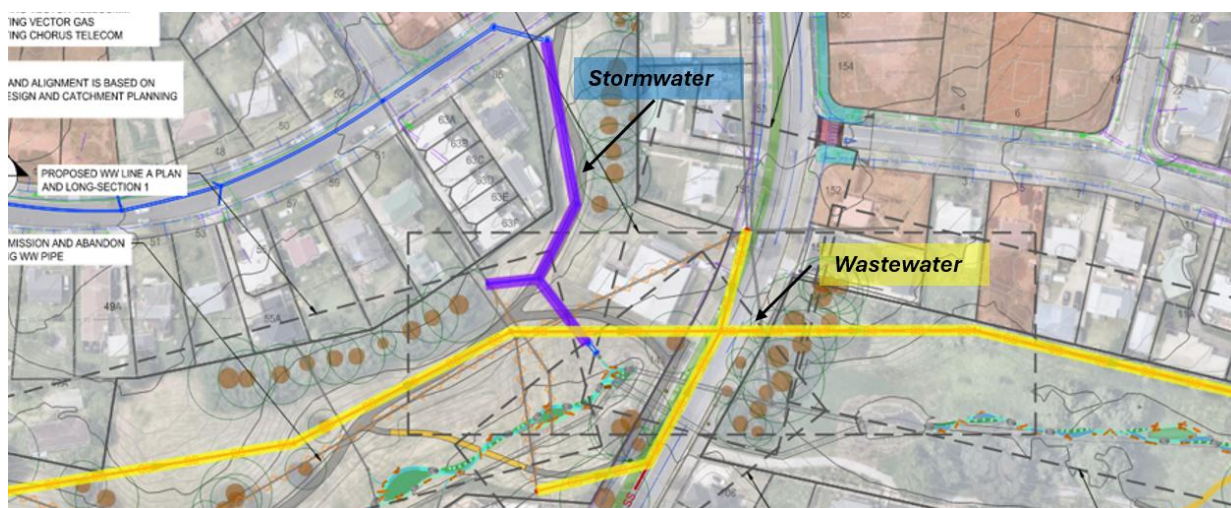

This will require a Temporary Traffic Management plan for 4 to 6 weeks, including weekends.

Traffic management

To minimise traffic disruption on Tripoli Road, Auckland Transport is implementing a temporary detour for southbound traffic via Tangaroa Road, Dunkirk Road and Tobruk Road as per the map below.

How this will affect you

- **There will be no parking on both sides of Tripoli, Tobruk and Tangaroa Roads.**
- Pedestrian access remains on Tripoli Road.
- Public bus and school bus routes remain unchanged.
- Resident access remains available, and the contractor will liaise with any affected residents

Any questions?

For any questions about construction during the project, please contact Julie Leonardi, project manager, Abergeldie Complex Infrastructure at jleonardi@abergeldie.com, 022 459 1795.

For more information regarding the project, please contact Auckland Council's Healthy Waters at healthywaters@aucklandcouncil.govt.nz Or call our contact centre on 09 301 0101.

Thank you from the Healthy Waters team

We'd like to take this opportunity to thank you for your patience and understanding while we continue to work on stormwater improvements in your community.
